

## Gov. Gretchen Whitmer - Email Template

---

Dear Governor Whitmer,

I am writing to you today as a concerned Michigan citizen regarding the inhumane and appalling conditions of the Women's Huron Valley Correctional Facility (WHV) located in Ypsilanti, Michigan. It has come to my personal attention that people and citizens within this facility are suffering potentially life-threatening conditions due to the presence of dangerous and out of control black mold within this facility. One of these people is Krystal Clark, a woman who has experienced severe nerve damage resulting in the loss of feeling and function in half of her face, as well as the growth of mold in and around her ear. Her condition is a direct result of neglect and indifference by MDOC and the people in power who can address and help her, but won't.

Here is what we are asking of you:

- An independent inspection of the facility's environmental and health conditions.
- Emergency medical attention for Krystal Clark and any other individuals suffering from similar issues.
- A long-term plan to ensure safe, sanitary, and habitable conditions for all inmates at the facility.

Krystal Clark is a human and deserves the medical attention required to address her condition, regardless of her incarceration. Please act in accordance with our requests, and continue to represent your constituents, and demand that Krystal Clark and others get proper medical care as demanded by law, and strongly advocate for the clear, necessary medical clemency. We are imploring you to prioritize her care before it's too late for her and other inmates within this facility. We, the people of Michigan and beyond, are demanding that you uphold the values of justice, fairness, and human dignity. We are looking forward to your response outlining the steps and action you will take to address these abhorrent and unacceptable conditions. Thank you for your consideration and time to read this citizen's concern.

Sincerely,  
[YOUR NAME]
